PRESS RELEASE TIKI

Part elegance, part functionality, and a slice of lime.

A minimalistic table that complements any setting, both indoors and out, while being compact to store away? Tiki embodies flexibility and functionality above all else, and as always, multi-functionality shines through the design. Pull up the Tiki stools and Acacia shade to create the perfect setting for togetherness; let the good conversation steal the night as you sit with ultimate comfort.

”

“Boosting togetherness with a flexible and compact design.”

— Dirk Wynants

Tiki is aperitif 2.0

Tiki was named after the typical Hawaiian tiki-tiki bar, popular in the '40s. Although minimalistic in the use of materials, this set expresses a rich lifestyle that encourages a moment to cut loose from the ordinary. Escaping traditional cocktail settings, often awkwardly heavy and not the prettiest sight to see, Tiki recreates a feeling of ease that wants to be shared, with a drink at hand, why not?

Graceful and foldable, sleek and stackable, this complementing set modestly perfects outdoor patios, indoor and outdoor countertops, and impromptu gatherings across different settings. Create extra space as you please; some friends spontaneously swing by? Just pop up a Tiki table and add some Tiki stools to compose an instant togetherness spot wherever you like.

Never in your way, but always at hand

Throwing a garden party? Coming together with neighbors? Feeling the urge to get outside even for a short while? Tiki is your compact go-to set for a worry-free cocktail moment; not heavy and awkward to drag around, but lightweight and compactly stored away.

The Tiki table is a modern and durable twist on the high-top café table. With a pure, minimalist design, Tiki complements any space, both indoors and outdoors, but what truly distinguishes this cocktail table is its foldable design. Just take off the tabletop and fold in the legs when it's time to hit the dance floor.

Merging elegance and functionality, these simple, uncluttered stools offer comfortable seating and support for tired feet. And unlike most other stools, Tiki is super easy to stack and move around. Available in different heights and colors, they bring the right vibe to any gathering – both indoors and out.

”“Easy to place in temporary settings, the table tightly folds together and the stools effortlessly stack.”

— Dirk Wynants

Tiki in a nutshell

- **Transparent fine lines, to give a tidy, sleek look with its minimal impact**
- **Tiki table**
 - Compactly stored thanks to the foldable design.
 - Two sizes; one for 3 people, one for 5.
 - The wire-frame base doubles as a footrest.
 - Two tabletops; a standard pierced tabletop perfect for outdoor use and an event tabletop. The standard has an umbrella hole and drainage holes shaped like the Windmill Galaxy in the Ursa Major constellation. The other has no umbrella holes or drainage holes.
 - The tabletop with holes fits perfectly with the Acacia shade.
- **Tiki stool**
 - Easy to stack and move around.
 - Three height versions for a variety of settings.
 - A footrest that adds comfort.
 - An optional backrest that allows for freedom of movement.
 - Optional cushions in different colors click in the drainage hole.
- **Tiki withstands heavy weather conditions thanks to the solid design and strong materials**
- **Materials and colors**
 - Tiki table:
 - The tabletop is powder coated ZnAlMg steel.
 - The frame is powder coated zinc steel.
 - Tiki stools:
 - The seat is powder coated aluminum or oak.
 - The legs are powder coated zinc steel.
 - The backrest is powder coated stainless steel.
 - Colors: Black, White, Verdigris, Earth, Copper brown.

About Extremis

Extremis was founded in 1994 by Dirk Wynants.

The Extremis furniture design collection represents products that are both necessary and useful. They are 'Tools for Togetherness' that stress the importance of and enhance human interactions, intelligent problem-solving and sustainability, to improve people's lives. Extremis has its headquarters in Poperinge, Belgium. The design furniture is very popular in all corners of the world.
