Extremis presents Panigiri

A Greek Celebration in Your Backyard

Extremis, celebrating its 30th year, introduces Panigiri, a revolutionary outdoor table designed to redefine the art of gathering. Inspired by the convivial spirit of Greek festivals, Panigiri beckons family and friends to share moments of togetherness around a common table.

Pan giri means gathering all

Panigiri, derived from the Greek words 'Pan' and 'Giri,' meaning 'All' and 'Gathering,' encapsulates the essence of unity and celebration. The modular design offers endless possibilities, allowing you to choose between a table with chairs, a picnic table, or a combination of both. Build your desired length, there are no limits!

Innovative Accessories

To complement the Panigiri table, Extremis introduces two accessories – the slide-on cushion and BYOS (Bring Your Own Seat). The slide-on cushion effortlessly slides between the planks of the bench, ensuring it remains securely in place and won't blow away.

BYOS is the revolutionary add-on chair designed to enhance your Panigiri bench experience. With a soft sunbrella fabric seat and a woven backrest, it provides stylish comfort. BYOS easily hooks onto the bench, staying put even in windy conditions. The seats are also stackable for convenient indoor storage during Winter.

The Perfect Companions

Enhancing the Panigiri experience are the Sensu Tilted shade and the Captain's Pipe Chair. Sensu Tilted, with its innovative 80° angle pole, redefines shading solutions, offering 360-degree rotation and adjustable tilt positions. This dynamic design ensures not only elegance but also functional versatility, allowing you to position the shade further from the furniture for enhanced coverage.

The Captain's Pipe Chair is meticulously designed to harmonize with Panigiri's organic allure. Its rounded legs not only ensure stability but also infuse a soft esthetic.

Design Beyond Esthetics

Panigiri is not merely an outdoor table; it's a commitment to sustainability. Crafted with galvanized steel, powder-coated stainless steel, and thermic-treated Ash wood, Panigiri ensures longevity while minimizing environmental impact. Its waste-optimizing design, utilizing excess wood from other collections, reinforces its commitment to sustainable elegance. Panigiri was also designed with eco-conscious transport solutions in mind, ensuring that tables up to 15 meters in length can be efficiently packed onto a single pallet.

It's a philosophy

Extremis is more than a furniture brand; it's a philosophy. Authenticity and real-life functionality take precedence. From stackable chairs to wind-resistant cushions, every element in the Extremis collection, including Panigiri, reflects a commitment to high design seamlessly integrated into everyday life. Notably, our commitment to authenticity extends to our visual storytelling – we exclusively feature real people. Our photo and videoshoots showcase our employees, their friends, and families, capturing genuine moments of togetherness. Even our furry friends, like the donkey in our campaign footage, are real animals, adding a genuine connection to the Extremis experience.

About Extremis

Extremis was founded in 1994 by Dirk Wynants. The Extremis furniture design collection represents products that are both necessary and useful. Their "tools for togetherness" focus on human interaction, intelligent problem-solving and sustainability with the ambition to improve lives. Extremis has its headquarters in Poperinge, Belgium, the design furniture is very popular in all corners of the world.
