

Sensu quattro diamond

© design by Dirk Wynants

extremis®

Dimensions

The Sensu quattro diamond is available in one dimension
In combination with the base

Box dimensions

The Sensu quattro diamond comes in 7 boxes

Box 1: Shade pole

Box 2: Shade arm (x4)

Box 3: Support

Box 4: Cover

Box dimensions (mm)		L	W	H	Qty	Volume (m3)	Gross weight (kg)	Net weight (kg)	Packaging weight (kg)
Sensu quattro diamond	Box 1	2750	330	360	1	0,33	32,00	29,00	3,00
	Box 2	2310	200	360	4	0,67	96,00	86,00	10,00
	Box 3	550	220	220	1	0,03	6,00	5,50	0,50
	Box 4	2650	140	140	1	0,05	4,00	1,50	2,50
Total:						1,08	138,00	122,00	16,00

Base dimensions

The base is available in one dimension

Base box dimensions

The base comes in 3 boxes

Pallet 1: tiles + Box 2 + Box 3

Box 5: cover plate

Box 6: base frame + rotating system + feet

Box dimensions (mm)		L	W	H	Qty	Volume (m3)	Gross weight (kg)	Net weight (kg)	Packaging weight (kg)
Base	Pallet 1	1200	950	437	1	0,50	251,00	222,80	28,20

In combination with the permanent fixation

In combination with the permanent fixation & pole extension

(It is highly recommended to use the pole extension when using the permanent fixation, to increase the height by 15 cm to ensure head clearance)

In combination with floor fastening

In combination with floor fastening & pole extension
(It is highly recommended to use the pole extension when using the floor fastening, to increase the height by 15 cm to ensure head clearance)

Permanent fixation dimensions

The permanent fixation is available in one dimension

Permanent fixation box dimensions

The permanent fixation comes in 1 box

Cover	<ul style="list-style-type: none"> 100% polyester Polyuréthane coating Breathable, so not 100% waterproof 	0,50	n.a.	240 g/m ²	Outdoor & indoor	Water repellent & breathable	6-8/8 (ISO 105-B02)	/

NEN-EN13501-1 A1

Class A1 products will not contribute to fire in any stage, including fully developed fire. For this reason, they are assumed to be capable of satisfying all requirements of all lower classes as well.

NEN-EN13501-1 A2-s1

Satisfying the same criteria as class B for the SBI-test according to EN 13823. In addition, under conditions of a fully developed fire these products will not significantly contribute to the fire load and fire growth

Good to know

- Sensu duo square opens like a fan from the center.
- Not possible to tilt the shade 90 degrees when both shades are opened.
- The diameter of the pole is $\varnothing 114$ mm.
- The shade cover is included.

Maintenance

POWDER COATED PARTS

- White powder coating obviously requires more maintenance.

ACRYLIC FABRIC

- Shake or brush off loose dirt immediately.
- Spray Extremis Multi Cleaner.
- Use a soft brush and make circular movements.
- Let the suds soak in for a moment.
- Rinse thoroughly to remove all soap residue.
- Simply allow to dry.

STAINLESS STEEL PARTS

- Clean regularly with a dry cloth and some stainless steel cleaner.

F.A.Q.

Q: *Is the fabric 100% waterproof?*

A: With light rain you stay easily seated under the shade. The fabric is slightly slanted in opened position. With heavy rain, the canvas lets through only a little bit of water. This is typical for the fabric and necessary, because the fabric should be able to ventilate.

Q: *Can you remove the fabric for washing?*

A: We do not advise this but it is possible. In the first place, you should close the shade when you do not use it and protect it with its cover. This protects the shade from getting dirty.

Q: *How wind resistant is the shade?*

A: Tests in a windtunnel have shown that the shade withstands wind speeds up to 6 on the Beaufort scale (49 km/h). Still, we strongly advise to close it sooner (from 4 on the Beaufort scale is the rule of thumb (28 km/h)).

Q: *Do you need to use a shade cover?*

A: The cover is needed to protect and fix the shade when not in use. Protect your shade from polluted rain, bird droppings, dust and heavy winds to avoid marks or stains on the shade fabric.

Warnings

General

- Do not use any sharp tools to open the packaging.
- We strongly advise against using power tools.
- Tripping hazard, mind your step.
- Do not put out cigarettes on the shade.
- Not graffiti proof.
- Do not leave children unattended whilst playing on the shade.
- Colors can differ over years and from batch to batch.

Product

- Do not drag the shade, but carry it with minimum 2 people.
- Anchoring the product has to be done by qualified people.
- For anchoring: use suitable bolts or screws from a specialized store depending on the material your terrace is made of.

- In case of strong winds or if it is not being used, close the shade and tilt the latches downwards. Put the protective cover over the shade to prevent it from blowing open or getting dirty.
- For ventilation purposes, the cover is not 100% water proof.
- Store the shade when not in use for a long time as follows: completely dry and in a dry environment.
- Do not leave the shade closed for a long time when the shade fabric is still damp or wet.
- Do not leave the shade unattended when opened.
- Tests in a windtunnel have shown that the shade withstands wind speeds up to 6 on the Beaufort scale (49 km/h). Still, we strongly advise to close it sooner (from 4 on the Beaufort scale is the rule of thumb (28 km/h)).
- We advise to position the shade in the direction of the wind, put the arm in a 5° à 10° angle.

Powder coating

- White powder coating requires more maintenance.
- Do not use abrasive scouring powders or scourers as they will scratch the surface.
- Color can fade to some extent when exposed to UV.
- Flame retarding - NEN-EN13501-1 A2-s1 - Satisfying the same criteria as Class B for the SBI-test according to EN13823. In addition, under conditions of a fully developed fire these products will not significantly contribute to the fire load and fire growth.
- Dark colors can get very hot in sunny weather.

Acrylic fabric

- Not waterproof, store inside!
- Shake or brush off loose dirt immediately.
- UV color fastness: 7/8 (ISO 105-B02).
