## **Tools for togetherness**

## Hi there!

---

Good design, ethical production and quality materials come at a fair price (list), and we should all be aware of that. However, in every minute of the design process, we do our absolute best to achieve the highest level of eco-efficiency by reducing transport volumes and waste. So, every tool for togetherness has a long history, even before it's being used by you. Designed logically and ecologically, solidly engineered after a thorough search and selection of quality materials, and then carefully made in Belgium. The result? An Extremis piece that you can love for a lifetime, something to pass on to the next generations. We are more than proud to welcome you to our price list.

	<p>ARE YOU SURE... this is the latest version? Check the expiration date on the next page, or go to <a href="http://www.extremis.com/pl">www.extremis.com/pl</a></p>
	<p>DEALER PORTAL Is the product in stock and ready to ship? Let's order it online! <a href="http://www.extremis.com/portal">www.extremis.com/portal</a></p>
	<p>PCON Don't forget, we are also on pCon planner. <a href="http://www.extremis.com/pcon">www.extremis.com/pcon</a></p> 

## Choose wisely

---

We offer great quality products, but every material has its own limits.

Don't expect wood to be perfectly smooth for years without any maintenance. After all, you don't expect your teeth to stay white if you don't brush them! Outdoor furniture also needs regular cleaning and some basic maintenance, especially in humid or polluted environments and if used intensively. Find out more in our materials section further on, or go to [www.extremis.com/maintenance](http://www.extremis.com/maintenance).

## We ♥ your project

---

If an order exceeds 5 pieces of one item, we consider it as a 'special' order. The lead time will differ from standard lead times, and other conditions might be applied to dimensions, colors or fabrics on request. There is one exception: our Sticks collection has a maximum standard order amount of 20 pieces of each item.

## Refurbishment tools

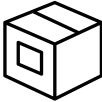

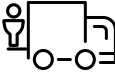

---

Every tool for togetherness has a long history, even before it's being used by you. Designed logically and ecologically, solidly engineered and made in Belgium with a selection of quality materials.

To extend the lifespan of our furniture even more, we offer spare parts. As every Extremis piece is designed with an efficient assembly process in mind, replacing a certain part is rather easy, and with straightforward videos that explain each step, you'll easily give a new life to your tool for togetherness. Find out more on [www.extremis.com/refurbishment](http://www.extremis.com/refurbishment)

## General sales conditions

Because we hold a large number of components in stock and produce locally, most of the articles have short leadtimes.

<p>€ 5185 GAR001</p>	<p>Recommended retail price ex. VAT</p>
	<p>Customized item, payable in advance, ask for lead time</p>
	<p>Orders must be confirmed by Extremis. These confirmations are final and binding: check them and advise about possible mistakes within 24 hours.</p>
	<p>The Buyer cannot cancel, withdraw, or modify orders without Extremis' written permission. If such a request is approved, there will be an associated cost as outlined in our General Terms and Conditions of Sale (<a href="http://www.extremis.com/termsandconditions">www.extremis.com/termsandconditions</a>).</p>
	<p>Delivery is door-to-door on street level to the Extremis dealer's warehouse. Drop shipping to the B2C end user is not possible.</p>
	<p>For DAP deliveries, one driver and one truck tailgate are included. If you need extra services, you can request them for an additional fee using the rates listed on page 6.</p>
	<p>If you make changes to the delivery address after we confirm your order, an extra fee of € 75 will apply.</p>
	<p>If the Buyer provides an incorrect address, contact details or opening hours and our transport company has to make a second delivery attempt, there will be an additional charge of € 150.</p>
	<p>We may send products in disassembled form. It is the Buyer's responsibility to assemble and install the product with the help of specialized assemblers and follow the instructions provided by Extremis.</p>
	<p>We offer a standard 2-year warranty on all products. For more information about the full warranty, visit <a href="http://www.extremis.com/warranty">www.extremis.com/warranty</a>.</p>

# Transport

We understand the importance of convenience when it comes to transport, and that's why we have a comprehensive overview of our transport costs and services. We offer a variety of services and transport solutions that are tailored to all your needs, no matter how special. Take a look at the grid below for more information! Please note that these services will apply to every separate order. Transport costs and services ex. VAT. Each address must be approved by Extremis.

	Belgium / The Netherlands / Luxemburg / Germany / Austria / Switzerland <sup>3</sup> / France	Italy <sup>2</sup> / Spain <sup>2</sup> / Portugal <sup>2</sup> / Denmark / Sweden / Norway <sup>3</sup> / Finland / UK <sup>3</sup> / Ireland	Rest of the world

# Acacia

© design by Dirk Wynants

This compact, asymmetrical, Acacia-shaped umbrella fits the limited space of a balcony or small patio. Its clever design lets you create all the shade of a larger umbrella with a much reduced surface area. Simply use the handle and turn Acacia to the sun. Instead of closing the umbrella, simply remove the canvas and store it in the bag. What's left is a beautiful tree-like sculpture that can weather the year outdoors.

Add parasol base(s) or fix to the ground.

# AMAi galvanized

© design by Dirk Wynants

AMAi is the flexibility that you desire, all the time, indoors and outdoors. Two A-shaped side frames provide a solid construction where multifunctional magic finds its purpose. In between these frames, you can position the tabletop into two heights: standard or high. Thanks to the innovative design, even a single person can smoothly slide the tabletop from 'sitting height' into 'standing height' and vice versa.

Add more A-frames to extend togetherness into infinity. One AMAi seats 8 people and stands even more.

# AMAI catering station

© design by Dirk Wynants

The AMAi catering station is your ultimate party wingman. No more running back and forth to the kitchen while your guests wonder where you've gone. This convenient prep table, with integrated plate storage, lets you put the final touches on appetizers right where the fun is. With the optional bar add-on, you can elevate the experience with a high-top area for drinks. And when it's time to raise a toast, the optional glass holder makes sure your wine glasses are just an arm's length away.

# AMAi benches

© design by Dirk Wynants

Minimalistic and lightweight, yet sturdy and weatherproof, the AMAi benches match the unique design of the AMAi table, while also fitting a wide range of settings on their own. Opt for a fixed low bench or for a height-adjustable bench that follows the chosen table height of AMAi. Sit on the bench at traditional height or flip the backrest to the other side to create a high bench to lean against.

# Anker

© design by Dirk Wynants

Anker is our answer to a growing need for optimal use of space. The compact 6-seater picnic table encourages one-on-one conversations, but its appearance invites people to come on board. Just slide in at the sides of the benches, without having to lift your leg. The solid frame is very robust and weather resistant. Configure Anker as you wish: choose galvanized steel or a powder coated finish, combined with Hellwood or Iroko hardwood tabletop and benches.

# Bistroo

© design by Dirk Wynants

Bistroo is an innovative, practical, weatherproof two-seater dining set. The clever three-legged design makes it perfectly stable on any surface, and, what is more, it is easier to stack and lock away than individual tables and chairs. Structured, powder coated metals are combined with clever features and accessories. Bistroo is ideally suited for small spaces and feels right at home against the backdrop of a cozy, compact restaurant or on a small city balcony.

# Captain's Chair

© design by Metrica

The Captain's Chair owes its name to its shape, which draws inspiration from yacht helm chairs. It's a shell chair offering unrivalled seating comfort. Thanks to this variety of frames, the chair can be used in all kinds of environments: public spaces, private homes, indoors, outdoors, etc. It is perfectly suited for terraces, patios, hotels, restaurants, pubs, offices, dining rooms, meeting rooms, bars and lounges, to name but a few possibilities.

Combine a shell + legs to compose your favorite Captain's Chair.

# Gargantua

© design by Dirk Wynants

Gargantua is a large round outdoor picnic table that offers superior functionality. The bench height can be adjusted to suit social or family circumstances. Due to this adjustability, the benches can move when you take a seat. In the highest position the benches become a tabletop extension and provide space for 12 people.

GAR001 + GAR135 + GAR038  
+ INU004 + INU007

€ 11640

# Hopper bench

© design by Dirk Wynants

In streetscapes and squares, gardens or balconies, Hopper bench suits any location. This multi-functional design can be used in more ways than a traditional city bench. The attached legs allow you to slide in from the sides and sit down with a backrest. And the top surface doubles as a tabletop when facing the opposite direction. The versatility of this design allows for a quick change of scenery while adding comfort along the way. If you prefer a mono-material bench, you can opt for Hopper bench AA, our All Aluminium version.

## HOPPER BENCH APPLICATIONS

Where to place the Hopper bench?

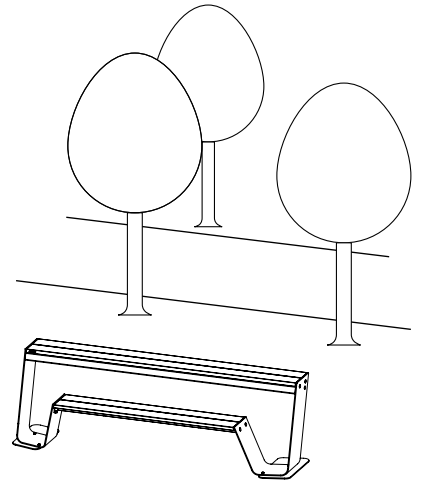

Against a wall or balustrade

Freestanding, always anchored to the floor

Freestanding with stabilizing support

# Hopper combo 180

© design by Dirk Wynants

The Hopper combo combines the best of two worlds: a bench on one side and chairs on the other. Grab a few Captain's Chairs to add comfort. The attached benches allow you to slide in from the sides, without having to lift your legs. The open side offers flexibility and welcomes wheelchairs or child seats at any time.

# Hopper picnic 180

© design by Dirk Wynants

Hopper is a more functional solution for a classic concept: the picnic table. The bent leg feature eliminates the awkward straddle of climbing over the benches. Aluminium or steel legs in combination with class I hardwoods ensure material longevity while the attached benches offer a clean aesthetic at all times.

# Hopper picnic 360

© design by Dirk Wynants

Hopper is a more functional solution for a classic concept: the picnic table. The bent leg feature eliminates the awkward straddle of climbing over the benches. Aluminium or steel legs in combination with class I hardwoods ensure material longevity while the attached benches offer a clean aesthetic at all times. If you prefer a mono-material picnic table, you can opt for Hopper AA, our All Aluminium version.

# Hopper shade

© design by Dirk Wynants

In the opened and closed positions, Hopper shade echoes the lines of the Hopper design. It opens and closes effortlessly, thanks to an internal spring mechanism that takes up no extra space beside the table. This foldable canopy creates ample shade for everyone in a simple, aesthetically pleasing way.

# Inumbra

© design by Dirk Wynants

Inumbra is unique because of its pure aesthetics. The mechanical parts of this umbrella are positioned at the top, resulting in a flat canopy that catches less wind than typical convex shapes. Tests in a windtunnel have shown that the shade withstands wind speeds up to 8 on the Beaufort scale (74 km/h) when anchored to the floor. Still, we strongly advise to close it sooner (from 6 on the Beaufort scale (49 km/h)). When paired with Gargantua or Pantagruel picnic, the umbrella pole is fastened to the tabletop. This looks clean and is also practical, as no legroom is lost under the table. The combination makes it the sturdiest terrace set you have ever seen.

# Inumbrina

© design by Dirk Wynants

The major difference between Inumbra and Inumbrina lies in how they are operated. Opening and closing the parasol with a rope turns out to be really easy, and even faster! Although the parasol can withstand wind speeds of up to 8 on the Beaufort scale, it is advisable to close it sooner (from wind speed 6 as a rule of thumb).

This table-seat-lounge combination makes efficient use of the space available by combining functionalities such as sofa, meeting spot, dining table and lounge bed. Convert the Kosmos sofa into a lounge bed by setting the adjustable table to its lowest position and adding a cushion.

Combine a base + cushions to compose your favorite Kosmos. Add a deco and lumbar cushion for extra comfort.

Kosmos 3-seater

3 to 4 people

# Kosmos shade

© design by Dirk Wynants

The Kosmos shade has an ingenious design and opens horizontally like a fan. Tests in a windtunnel have shown that the shade withstands wind speeds up to 6 on the Beaufort scale (49 km/h) when anchored to the floor. Still, we strongly advise to close it sooner (from 4 on the Beaufort scale (28 km/h)). This designer shade hangs low enough to provide plenty of shade, and is perfect for placing next to the Kosmos table and seat combination or any other furniture. Two hidden magnets keep the parasol open.

# Manille

© design by Dirk Wynants

Designed as a table with bench formation, this picnic table comfortably accommodates up to four people on the benches while the head of the table is reserved for wheelchair users - making Manille an inclusive and accessible table for everyone; a true tool for togetherness. What makes this picnic table stand out is its versatility. Extend the table in length by connecting multiple tables together. Thanks to a simple connection piece, you can join as many tables as you want. The shade creates an intimate cocoon whenever you need it.

# Marina combo

© design by Metrica

A combination of chairs and benches is what makes this range really unique. You can have a frequent use zone with Captain's Chairs that offer high comfort, and still have plenty of visitors over, offering seats on the benches.

Other combinations on request. If the length of the table exceeds 6m, special transport surcharges might be applicable.

# Marina picnic

© design by Metrica

The marvel of the Marina picnic design is that the tabletop is one seamless piece, creating a calm and uninterrupted aesthetic. With benches on both sides, this piece is a perfect example of the Extremis 'Tools for Togetherness' philosophy, bringing up to 26 people together at standard lengths of up to 7,15 meters. If the length of the table exceeds 6m, special transport surcharges might be applicable.

# Marina double desk

© design by Metrica

The Marina double desk is perfect for office environments. The desk has two tabletops with only one set of legs, an ideal solution for open-plan offices. The fiberglass tabletop is very strong, yet it feels as pleasant as wood. In between the desk, there's a space for plugs and cables or extra accessories.

Other lengths and accessories on request. If the length of the table exceeds 6m, special transport surcharges might be applicable.

# Marina tables

© design by Metrica

The Marina table set is available without the attached seating benches to create a free-standing table. Marina table is not only unlimited in length, you can also extend the long architectural lines from the terrace through to the dining room, from the office workspace through to the office canteen. Boundaries blur between work and play, indoors and outdoors. If the length of the table exceeds 6m, special transport surcharges might be applicable.

	685 cm	18 Captain's Chairs	Position of the legs is asymmetrical

# Panigiri

© design by Dirk Wynants

'Pan giri' in Greek stands for 'gathering all,' and that's what this design is all about. Choose between a table with chairs, a picnic table, or a combination of both. The smart position of the benches allow easy entry without lifting your leg. Experience optimal comfort with BYOS (Bring Your Own Seat) and convenient slide-on cushions. The new Captain's Chairs Pipe Legs perfectly complement the organic, round shapes of this table.

The modular design of Panigiri offers you the freedom to add extra modules at a later time, to extend togetherness.

# Pantagruel picnic

© design by Dirk Wynants

The Pantagruel round picnic table seats eight. The frame is available in a powder coated or galvanized finish. When combined with the wood used for the tabletop and benches it forms a durable outdoor picnic set. Pantagruel also features a Lazy Susan, to take the hard work out of passing food and drinks around.

# Pantagrue table

© design by Dirk Wynants

The Pantagrue table easily seats eight. With several color and material options, it fits in any indoor or outdoor space. The round shape allows everyone to take part in the conversation and have eye contact, which makes it ideal for a round table meeting. The Lazy Susan in the center makes sharing easy with others around the table.

We recommend using floor fastening when combined with Inumbra.

# Pantagrue high table

© design by Dirk Wynants

Looking for a cocktail table with the refined yet sturdy Pantagrue look? Behold the Pantagrue high table. Eight chairs and even more stools fit around the extra-large tabletop. In the center you will find an HPL Lazy Susan, with which to easily pass things around. The light design uses highly durable, outdoor-resistant materials.

We recommend using floor fastening when combined with Inumbra. Can not be combined with Inumbra large.

Picnik is made from a single sheet of aluminum, cut and bent to shape with zero waste. The form seats two people comfortably at the tabletop and withstands the harshest of the elements outdoors. A perfect example of 'form follows function', Picnik is a true design classic in the Extremis collection.

# Sensu

© design by Dirk Wynants

This freestanding shade opens horizontally like a hand fan and does not take up any space on your precious table. Thanks to its flat surface, Sensu offers excellent wind resistance while also keeping any technical parts out of sight. This floating shade opens and closes effortlessly while by cantilevering Sensu, you optimally cast the shade. The modular central pole can hold one, two, or even four shades for a maximum shade surface. Sensu is the perfect tool for enjoying a cool moment with friends and/or colleagues on a sunny day.

**FIXATION OPTIONS**

Start by identifying the ground type, as this will guide your choice of fixation:

- **For solid ground** (f.i. tiled or concrete areas): you can chose between a wheel base (for mobility), a feet base or floor fastening
- **For soft ground** (f.i. a lawn): we recommend concrete anchoring

Parasol type	Pole color	CHOOSE YOUR FIXATION				Pole extension Recommended for floor fastening and concrete anchoring
		Wheel base Movable	Feet base Stationary	Floor fastening Drilling required	Concrete anchoring Digging required

It's not a sunbed, it's not a sofa, it's both. Transform the comfortable outdoor lounge sofa into a sunbed. This multifunctionality makes Sol+Luna the perfect space-saving solution for balconies or patios. The slender sculptural frame and clean, architectural lines match the aesthetic of modern buildings, urban environments and boutique hotels. Accessories can be used to create shade, add lighting and provide surfaces for drinks. Storage accessories keep valuables safe while taking a dip in the pool.

# Sticks

© design by Hsu-Li Teo & Stefan Kaiser

This space divider is ideal for creating a feeling of privacy in a garden or on a balcony without losing the sense of freedom typical of open spaces. Use Sticks indoors to adapt the look of a room or office arrangement entirely to your own taste. You can also choose which and how many rods you use and create various degrees of transparency, color combinations or differences in length. Delivered with optional feet for delicate floors. Rubber can cause stains on delicate surfaces. We recommend to use the feet if placed indoors. Use a wooden base on carpet floor.

Combine a base + rods to compose your favorite sticks.

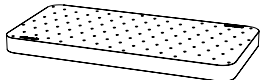

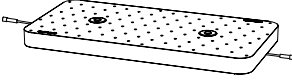

Check availability  
[www.extremis.com/portal](http://www.extremis.com/portal)

## STANDARD BASES

# Tiki stools

© design by Dirk Wynants

Tiki is the ideal stool for any party, indoors or outdoors. Or why not opt for a stylish twist, with a wooden seat? With its minimalist contours, this bar stool blends seamlessly in any setting, but also emphasizes the bar itself. Tiki offers comfortable seating and support for tired feet. Even with the optional backrest, your guests have optimal freedom of movement to move to the music while sitting down. And don't worry, the optional cushion won't be blown away by the wind, because it's safely attached to the seat. Tiki is your friend even when all furniture is moved aside to make space for the dance floor - simply stack it up (8 pieces)!

# Tiki table

© design by Dirk Wynants

Tiki table is sophisticated, weather-proof, functional, and ready to back your cocktail moment. Rest tired feet on the bent steel legs. The light, dainty aesthetic should not be underestimated as the durability of the design is ensured by a strong, wire-frame base made up of outdoor-resistant materials. But what really distinguishes this table is its foldable, compact design. Just take off the tabletop and fold in the legs when it's time to hit the dancefloor.

Virus brings life to even the most sterile places. When you look at it from above, you can see its round shape with variously shaped arms. The compact design is an answer to smaller living spaces and makes it perfect to use on balconies, in urban gardens or in breakout spaces in offices or schools. There is a Virus picnic table fit for any need. Our aim? Togetherness, anywhere.

Add the included rubber ring to nicely fit your Acacia parasol.

# Walrus

© design by Dirk Wynants

Walrus is a true innovation, as a super robust cover material is used to make a sleek, weatherproof sofa that always looks great. An ingenious storage pouch in the back of the Walrus hides a foldout blanket and cushions to provide softness and comfort. This softness is provided in a matter of seconds: a warm, dry and comfortable place to sit outdoors is instantly available as soon as the sun comes out. Yes, in all seasons!

€ 15860

# Finishes

---

Generally speaking, aluminum and steel are low-maintenance materials. Thanks to powder coating techniques, these materials are available in several colors. Choose white only if you are willing to take greater care and clean your products regularly. If you are not big on cleaning you should consider galvanized steel for your furniture.

Colors may vary from batch to batch.

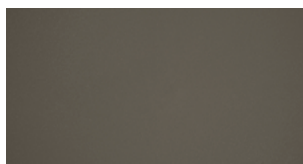

Galvanized steel

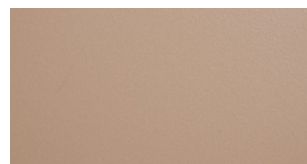

Black — RAL9005

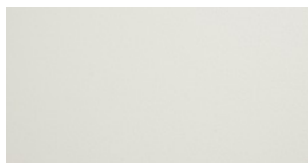

Earth — RGB 88 88 84

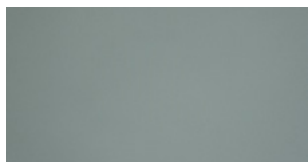

Beach beige — RAL1019

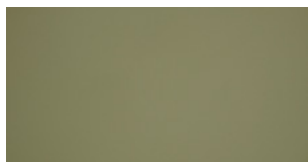

Off white — RAL9002

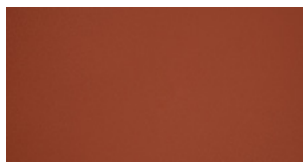

Verdigris — RGB 133 147 142

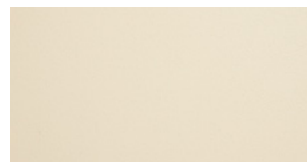

Reed green — RAL6013

Copper brown — RAL8004

Cosmic cream — RAL1015

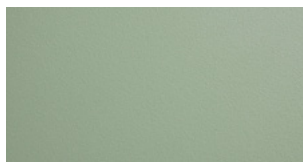

Cobalt blue — RAL5013

Sun yellow — RAL1032

Pistache — RAL6021

# Sunbrella®

---

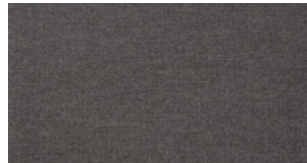

Sunbrella® is an acrylic fabric that is still known as the best outdoor fabric available for making cushions. The raw material is Sunbrella® solution-dyed acrylic fibre. The color pigments are locked right into the very heart of the fibres during the initial stage of the manufacturing process, before the yarn is even made. Sunbrella® colors stand up to tough weather conditions and years of sun exposure.

Colors may vary from batch to batch.

Grey chiné — Natté

Dark taupe — Natté

Coconut — Savane

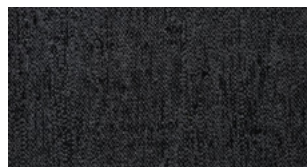

Marble — Lopi

Charcoal — Lopi

Sooty — Chartres

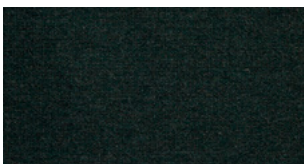

Leaf green — Heritage

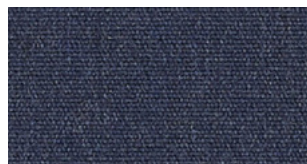

Moss — Heritage

Alpine — Heritage

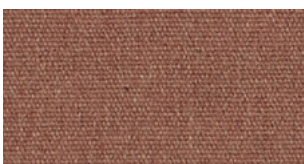

Indigo — Heritage

Loto — Domino

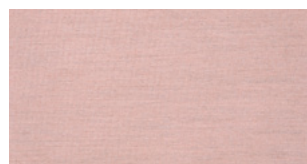

Rust — Heritage

Craps — Domino

Blush — Solids

Biscuit — Lopi

# Biomes

Biomes are the large vegetation zones of the earth. Each biome undeniably evokes a certain atmosphere. We drew on them to design color palettes in order to make it easier to combine our products and cushions.

## Out of the Fjordinary

*A boreal and montane togetherness biome*

*We translated the northern biomes into a balanced color palette, transcending the ordinary through a blend of nature's most incredible beauty*

Powder coating colors

Sunbrella fabric colors

<ol style="list-style-type: none"> <li>1. Black</li> <li>2. Off white</li> <li>3. Cobalt blue</li> <li>4. Pistache</li> <li>5. Verdigris</li> </ol>	<ol style="list-style-type: none"> <li>1. # Professionals

---

Professionals, we've got you covered! Whether you're an architect, designer, or a pro in the world of landscape, office, education, or hospitality, we've got the tools you need to make your projects shine with Extremis.

[www.extremis.com/pro](http://www.extremis.com/pro)

## CUSTOM COLORS

We believe that color has the power to elevate the esthetic appeal of any project, allowing for harmonious integration within various environments. Whether it's a vibrant hue that captures attention or a subtle tone that complements the surrounding elements. That's why most of our products are available in any RAL-color you want.

Startup fee of € 300 (ex. VAT) per color.

## FLOOR FASTENING

Through innovative engineering and meticulous attention to detail, we ensure that our furniture remains securely anchored to the ground. This offers peace of mind to both designers and end users, knowing that our anchoring systems not only deter theft but also prevent the furniture from being dislodged or blown away by strong winds.

However, it's important to note that the installation of our products should be done by qualified individuals. The anchoring process involves using suitable bolts or screws, which can be obtained from a specialized store. The selection of these components greatly depends on the material your terrace is made of. This ensures that the anchoring is not just secure, but also perfectly suited to your specific environment.

## DOWNLOADS

Get the complete packages of all technical and inspirational materials from a single destination: [www.extremis.com/en/product-downloads](http://www.extremis.com/en/product-downloads)

# Wheelchair accessibility

Our innovative tables and picnic benches have been built with wheelchair users in mind. This not only allows the users to gain access to the tables but also contributes to the social aspects of sitting at the same table. Besides facilitating wheelchair access, this furniture is also perfect for pushchairs. They are 'Tools for Togetherness' for everyone and support full inclusivity.

As specifications for wheelchair accessibility vary around the world, please visit our technical sheets to ensure the measurements of each solution meets the specifications of your local requirements.

The following products don't need any product modifications.

# Virus wheelchair accessibility

Our furniture is made to last, so picking the right piece is a crucial step in completing your project plans. We strive to make our furniture both accessible and inclusive. So with some minor adaptations we made the Virus picnic tables accessible for those with mobility issues. By removing one of the legs, in the Virus 4 or 5-seater, a wheelchair fits perfectly in the gap.

## VIRUS 4-SEATER WHEELCHAIR

One leg has to be removed  
Only possible when combined with floor fastening

Virus 4-seater Standard tabletop (incl. floor fastening)	<b>€ 1890</b>
--	---------------

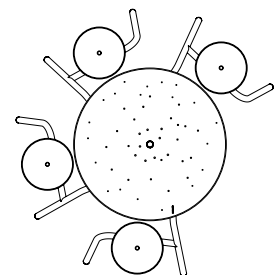

Virus 4-seater Solid tabletop (incl. floor fastening)	<b>€ 1870</b>
---	---------------

68,9 cm

## VIRUS 5-SEATER WHEELCHAIR

One leg has to be removed

Virus 5-seater Standard tabletop	<b>€ 2180</b>
-------------------------------------	---------------

Virus 5-seater Solid tabletop	<b>€ 2150</b>
----------------------------------	---------------

68,9 cm

Virus 5-seater Standard tabletop (incl. floor fastening)	<b>€ 2305</b>
--	---------------

Virus 5-seater Solid tabletop (incl. floor fastening)	<b>€ 2280</b>
---	---------------

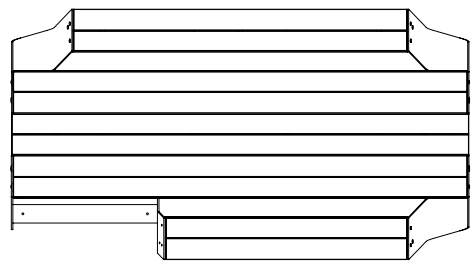

# Hopper picnic wheelchair accessibility

Our baseline 'Tools for Togetherness' implies that we provide high quality products for everybody, even our wheelchair using friends. Proof are the tailor-made versions of our popular Hopper picnic tables. By shortening the benches on one or two sides, wheelchair access is facilitated. Let's bring inclusivity to the table!

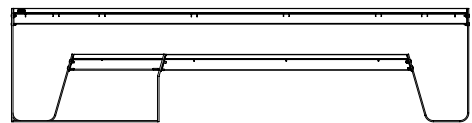

The price of the Hopper picnic is subject to size, finish and quantity. Keep in mind that these special Hopper picnic versions are only available in 300 cm and 360 cm.

## HOPPER PICNIC WHEELCHAIR

# Charging modules

By connecting quality, necessity and functionality, Extremis generates togetherness all over the world. We're still searching for ways to empower people and to spark interactions that truly matter. How? By energizing our current furniture collection, each patio, office space and lunch area is ready to be powered up.

Extend outdoor possibilities, break down boundaries, and stay connected with this shocking furniture. With this power option, the outdoor table becomes an all-purpose set. Your battery died? No problem!

## WIRELESS CHARGER - OUTDOOR & INDOOR

Outer dimensions (ø): 8 cm

Wireless charger on top, compatible with all devices with wireless charging system

It has a quick charge system | One battery included

2 x USB on battery pack  
Battery 55 wh - Antenna 5w  
IP65 & Shockproof

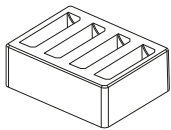

**€ 410**  
ELE001

## CHARGING TRAY FOR WIRELESS POWER

Outer dimensions (l x w x h): 24 x 8 x 9 cm

Charges up to four stations simultaneously in 7 hours | 4 charging slots

Includes magnetic key to remove the station from its support

For Europe

**€ 290**  
ELE002

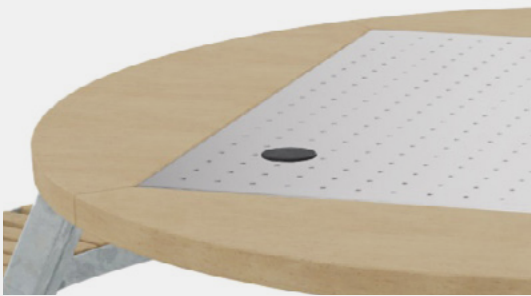

**ANKER**

**BISTROO**

**GARGANTUA**

**HOPPER**

**MARINA**

**PANTAGRUEL**

**VIRUS**

# Maintenance tools

The extreme quality of the materials used in Extremis products and the way they are designed only serve one good cause: To. Last. Longer. Nothing goes without a little effort however. Maintenance is needed to stand the test of time. So please have a look at our maintenance products and our tips to keep your tool for togetherness in excellent shape.

## WOOD CLEANER - 1L

Wood Cleaner is a cleansing shampoo for wooden furniture. The product removes gray discoloration, green deposits and dirt

OND001

## MULTI CLEANER - 0,5L

Extremis Multi Cleaner is a ready to use cleaner. Its powerful formula removes the most persistent stains

OND004

## WOOD PROTECTOR - 1L

Protect your wood regularly from UV and inclement weather. The Extremis wood protector is a 100% natural product

OND002

## EXTREMIS BRUSH

Use this hand scrubber in combination with Extremis Wood Cleaner and Multi Cleaner to remove persistent dirt

OND006

### **WOOD CLEANING KIT**

Wood Cleaner - Wood protector 1L - Extremis brush - Tape - Sanding block - Brush

OND057

### **GENERAL CLEANING KIT**

Multi Cleaner - Sponge - Microfiber cloth - Extremis brush

OND058

# Wood

---

**Wooden structures in the sea such as pontoons, piers, jetties and so on are living proof of the soundness of wood as a suitable material for the structure and finish of outdoor applications. Almost constantly in contact with salt water and subject to biting winds and high UV densities, the wood may well turn grey, but it lasts for decades, which makes it a superb material.**

Choose wisely

---

Wood is a living material and in spite of the superior quality provided by the species we use, it constantly has to adapt to extreme changes in temperature and humidity. Due to internal stress resulting from these constant adaptations the wood "warps". This warping can lead to cracking, among other things. Changes in color and structure can also appear. These characteristics are typical of the material and by choosing this material you accept them. When delivered, the wooden parts of our products are untreated. Exposure to sun and rain will gradually change their color to silvery gray, and also roughen the surface. We strongly recommend that you treat your wood regularly with wood oil to protect it from stains and to slow down the roughening process. In some cases, white spots might appear in the wood, especially in Iroko hardwood. These tiny dots are calcium carbonate deposits that become a part of the wood when the tree absorbs water from an alkaline soil. The calcium fragments don't change the quality of the wood, but they are visible to the eye. From a durability standpoint, Extremis will not throw out this quality wood, however, when there are more than ten spots visible per 100 cm<sup>2</sup>, the wood is no longer used in our regular sale, but gets a second life for demonstration and R&D purposes.

## Iroko

Used for Anker - Gargantua - Hopper - Pantagruel - Walrus

---

Iroko is an African species of tropical hardwood. The high quality allows us to make wide tabletop segments out of one piece of wood. The color and characteristics of the wood are similar to teak. Our suppliers have their own concession and guarantee to deliver only the best quality Iroko hardwood, with a clear paper trail to guarantee sustainable entrepreneurship.

Choose wisely

---

Like all wood, Iroko will gradually become rough and grayish by exposure to the sun and rain, small cracks and crevices may also appear as part of this process. We strongly advise to yearly treat the furniture with our Wood Protector. The natural oil protects the wood from moisture and spilled liquids, which keeps the wood stable for longer and keeps stains superficial.

# Hellwood 100% PEFC

Used for AMAi - Anker - Hopper - Manille - Panigiri - Pantagruel - Walrus

Extremis Hellwood is European thermally treated wood that has been through purgatory to steel it against all kinds of hellish ordeals. And there are more than enough of them out there: UV rays, rain and acid rain, fluctuating humidity levels, frost, extreme heat and so on. Our preservation gives the fibers greater internal stability and increases their resistance to rotting. In this way, we obtain a type of wood that belongs in Durability Class I, just like the very best tropical wood. An attractive side-effect of the process, of course, is the wood's dark coloring.

Choose wisely

Like all wood, Hellwood will gradually become rough and grayish by exposure to the sun and rain, small cracks and crevices may also appear as part of this process. We strongly advise to yearly treat the furniture with our Wood Protector. The natural oil protects the wood from moisture and spilled liquids, which keeps the wood stable for longer and keeps stains superficial.

# Rubberwood

Used for Sticks

---

The wood of the rubber tree (rubberwood) is very valuable: it has a very nice light color, high stability as a result of the low level of shrinkage and it is very easy to process. Perfect for indoors! Rubberwood is very popular for making stairs and furniture... or basically anything made of wood. Choose the natural version, or the dark washed version using oil. At Extremis we first use the latex from the rubberwood tree to make the rubber Sticks bases and once the trees are too old to tap latex, instead of chopping and burning the wood, we use the wood to make the rubberwood Sticks bases.

Choose wisely

---

As rubberwood is only used inside, it needs no maintenance. The dark washed version has a dark gray look with the wood grain still visible. This is far from a black base.

# Oak

Used for Tiki

---

Oak wood is a type of hardwood commonly used for furniture making, flooring, barrel making or timber frame buildings. It is mainly appreciated for its robustness and durability. Many also appreciate its prominent grain and light attractive color. Oak is a popular choice for interiors, as it brings a warm, natural feeling to any room.

Choose wisely

---

As most woods, oak wood should be oiled frequently if you want to maintain its look longer. However, since it's a natural material that is easy to repair and refinish and since it is used inside, its maintenance will be lighter than for outdoor use.

# Bamboo

Used for Bistrot

---

Our durable bamboo components are made from solid Bamboo strips originating from China. Thanks to a unique engineering process of compression under high temperature and pressure, an exceptional hardness and durability is achieved. Our suppliers only uses certified environment friendly ingredients for this specific technique. Made with high attention to detail and precision, providing us with a high quality and sustainable product.

Choose wisely

---

Each Bamboo service has been treated with a wood oil to protect it from stains and internal changing climate conditions. The Bamboo wood is easy to clean with water and mild household soap. Don't use aggressive cleaning products or sand the surface.

# Aluminium

---

**Aluminium is one of the most common substances on earth. It is a metal offering an exceptional combination of properties. It is light and 100% recyclable. The alloys we use contain maximum 30% virgin material.**

## Fine structured powder coating

Used for AMAi - Anker - Bistrot - Hopper - Kosmos - Picnik - Sensu - Sol+Luna - Tiki stools - Virus

---

Powder coating is a technique of applying dry paint to a part. The powdered paint is electrostatically charged and sprayed onto the object. The object is then placed in an oven and the powder particles melt and coalesce to form a continuous film. The fine textured powder-coating has a high scratch resistance, perfect for intensive use.

Choose wisely

---

Choose white powder coating, only if you are willing to clean the surface regularly. There is nothing uglier than a dirty piece of design furniture, right?

## Anodized

Used for Sol+Luna shade

---

Anodizing is a process which increases the thickness of the natural oxide layer on the surface of the aluminium. This layer protects the aluminium from corrosion. We have chosen not to give the aluminium any further treatment, as this would not lengthen its lifespan and would also be very bad for the environment.

Choose wisely

---

Easy to clean with lukewarm water and a mild detergent.

# Steel

---

**Steel is an alloy of iron and other elements, primarily carbon, that is widely used in construction and other applications because of its high tensile strength. Steel's base metal is iron, the element that rusts when in direct contact with oxygen. There are three ways to cope with this property: block direct contact with the air (e.g. by galvanizing), replace a certain amount of iron with carbon (e.g. stainless steel), or use rust as a finish (e.g. weathering steel).**

Choose wisely

---

Steel may rust sooner or later, so try to keep surfaces clean and dry, and in any case do not leave metal objects outside on top of any other steel surface. A chemical reaction occurs that will affect the other surface. As soon as rust has been noticed, act immediately and accordingly, as rust accelerates rusting.

# Galvanized

---

Used for Acacia - AMAi - Anker - Captain's Chair - Gargantua - Hopper - Inumbrina - Kosmos - Manille - Panigiri - Pantagruel - Senu - Tiki Trolley - Walrus

Galvanization is the most durable method for protecting metal from rusting. The metal is immersed in a zinc bath which results in a protective layer. If the layer gets damaged, the metal underneath will start rusting. However any damage can be touched up with zinc paint available from any DIY store. Galvanized steel has a very long life span and is perfectly recyclable if necessary.

Choose wisely

---

We call it the George Clooney of coating techniques: its looks improve better with age... Our tools with galvanized surfaces are masters of camouflaging dirt, thanks to the materials rough texture. At first, galvanized pieces look very shiny, but they will gradually turn matt under the influence of sun and rain. Rain may also cause dark stains underneath the connection zones.

# Fine structured powder coating

---

Used for Anker - Bistrot - Captain's Chair - Marina - Pantagruel - Tiki stools - Tiki table - Virus

Powder coating is a technique of applying dry paint to a part. The powdered paint is electrostatically charged and sprayed onto the object. The object is then placed in an oven and the powder particles melt and coalesce to form a continuous film.

Choose wisely

---

Choose white powder coating, only when you are willing to clean the surface regularly. There is nothing uglier than a dirty piece of design furniture, right? Our glossy powder-coating is very maintenance-friendly, however.

# Stainless 316

Used for AMAi shade - Gargantua - Hopper shade - Inumbra - Kosmos shade - Manille shade

---

The highest stainless steel quality available is type AISI 316. Aggressive environmental conditions caused by chlorides, acid rain, salt and other rusty materials will require periodic maintenance.

Choose wisely

---

We advise a regular treatment with stainless steel cleaner or protector, especially in aggressive environments. Products to clean and protect are widely available.

# Stainless 304

Used for Inumbra - Inumbrina - Kosmos shade

---

For some products we combine different high quality types of stainless steel. Aggressive environmental conditions caused by chlorides, acid rain, salt and other rusty materials will require periodic maintenance.

Choose wisely

---

We advise regular treatment with stainless steel cleaner or protector, especially in aggressive environments. Products to clean and protect are widely available.

# Fine structured powder coated ZnAlMg

Used for AMAi - Anker - Tiki table - Virus

---

ZnAlMg-dipping is an alternative to hot dip galvanization and is the best choice for more detailed products that need to be coated afterwards. Thanks to its unique composition, ZnAlMg provides high level of surface and cut-edge protection, even in the most hostile environments. It is produced on a classic hot dip galvanising line which molten bath has a unique chemical composition including zinc, aluminium, and magnesium, the perfect base layer for powder coatings.

Choose wisely

---

Choose white powder coating, only if you are willing to clean the surface regularly. There is nothing uglier than a dirty piece of design furniture, right?

# Fine structured powder coated stainless steel

Used for Acacia - AMAi - Bistrot - Captain's Chair - Inumbra - Manille - Panigiri - Pantagruel - Sol+Luna - Tiki stools - Tiki table - Virus

---

Powder coating is a technique of applying dry paint to a part. The powdered paint is electrostatically charged and sprayed onto the object. The object is then placed in an oven and the powder particles melt and coalesce to form a continuous film.

Choose wisely

---

Choose white powder coating, only if you are willing to clean the surface regularly. There is nothing uglier than a dirty piece of design furniture, right?

# Composites & plastics

---

**A composite is made of at least two constituent materials with different material properties, resulting in a new material with better characteristics. We add plastics to this category, as no plastic is ever applied without adding fibres or fillers.**

## Fiberglass

Used for Sticks

---

Fiberglass reinforced polyester resin material is made with what is called the pull-trusion technique. Pull-trusion is a non-stop process of fiberglass wires pulled through a bath of polyester resin that harden in a matrix afterwards to get their final shape. The main advantages of this material are its strength, corrosion-durability and light weight.

Choose wisely

---

Choose white fiberglass tabletops and benches only if you are willing to clean the surface regularly. Don't use aggressive detergents or abrasives as you will scratch the invisible UV layer. Fiberglass sawdust may stick to the surface use gloves for installation, or clean beforehand. Tree leaves, dust, CO2 emissions etc. may leave marks on a spotless white surface, so keep this in mind when choosing the perfect location for your product.

## Coated fiberglass

Used for Marina

---

Coated fiberglass is a technique of applying wet paint to a fiberglass profiles. The paint is sprayed onto the profiles. The object is then placed in an oven to form a continuous film.

Choose wisely

---

Choose light colors, only if you are willing to clean the surface regularly. There is nothing uglier than a dirty piece of design furniture, right?

## HPL

Used for Kosmos - Pantagruel - Sol+Luna

---

High pressure laminate (HPL) is a flat panel based on thermosetting resins, homogeneously reinforced with wood fibres and manufactured under high pressure and at high temperatures. Its integrated surface is based on pigmented resins cured by electron beams. The modulus of elasticity and high tensile and flexural strength guarantee HPL's high impact resistance. The closed surface makes it easy to clean.

Choose wisely

---

Choose a white HPL tabletop only if you are willing to clean the surface regularly.

# Polypropylene

Used for Captain's Chair

---

Polypropylene is resistant to stress corrosion. It may sound crazy that corrosion can also occur in plastics but it is true. This results in cracking, especially in areas where mechanical stress occurs in combination with a chemical attack. PP is a plastic that has very low susceptibility to this.

Choose wisely

---

A white polypropylene surface may be more sensitive to stains than a black one. Polypropylene is quite a soft material and thus sensitive to scratches.

# Rubber

Used for Sticks

---

The rubber tree gave us wood, but before that, it gave us rubber of course! Sourced and locally manufactured in Sri Lanka, these rubber bases are the only products in our range that don't carry the 'Made in Belgium'-label, as we don't grow rubber trees in Belgium.

Choose wisely

---

Natural rubber has the color of pale skin. The black color is obtained by adding carbon, silica or carbon chalk before vulcanization. The carbon chalk can cause black stripes on the floor, but they can easily be removed.

# Concrete

Used for Inumbra - Inumbrina - Hopper shade - Kosmos shade

---

Concrete is a composite material composed of sand bonded with a fluid cement that hardens over time. Our concrete blocks are high-pressure moulded to make them stronger.

Choose wisely

---

Use concrete blocks, only if floor fastening is not possible.

# Fabrics & leathers

---

Yarn is produced by spinning raw fibers to produce long strands. Our textiles are formed by weaving or felting, sometimes coated with acryl, pvc or polyester in order to repel water and dirt. All fabrics are carefully considered and selected for their purpose in an outdoor environment.

## Sunbrella®

Used for AMAi - Bistroo - Captain's Chair - Gargantua - Hopper - Kosmos - Marina - Panigiri - Pantagruel - Sol+Luna - Tiki - Virus - Walrus

Sunbrella® is an acrylic fabric that is still known as the best outdoor fabric available for making cushions. The raw material is Sunbrella® solution-dyed acrylic fibre. The color pigments are locked right into the very heart of the fibres during the initial stage of the manufacturing process, before the yarn is even made Sunbrella® colors stand up to tough weather conditions and years of sun exposure.

Choose wisely

Our Sunbrella cushions and blankets are machine washable at low temperatures. A white and a colored cushion can both get dirty, but the white one will look dirtier sooner. Do not tumble dry.

## High-tech polyester

Used for AMAi - Inumbra - Inumbria - Hopper shade - Kosmos shade - Sol+Luna shade

Polyester is the most popular synthetic fibre in the world. The use of special finishing methods makes the fabrics weatherproof, water repellent, dirt repellent, lightfast, etc. High-tech polyester is used for a variety of "sun protection" purposes - from seat cushions to patio furniture through to awning fabrics. High water and UV resistance guarantees an excellent long-term appearance.

Choose wisely

Tree leaves, dust, CO2 emissions, pollution, bird droppings etc may leave marks on a spotless white fabric, so keep this in mind when choosing the perfect location for your shade.

## PU-coated polyester

Used for Acacia

Our PU-coated polyester fabric is a stretchable fabric that is suitable for outdoor use. The fabric water repellent, light weight and flexible. It's mainly used for camping tents, light duty covers, clothing and bags. The stretch quality of the fabric ensures that it never wrinkles.

Choose wisely

Tree leaves, dust, CO2 emissions, pollution, bird droppings etc may leave marks on a spotless white fabric, so keep this in mind when choosing the perfect location for your shade.

## Acrylic

Used for Sensu

This solution-died acrylic fabric is an extensively researched fabric that has been tested and proven to be very hard-wearing. A water-resistant coating prevents water from penetrating the fabric making it an all-weatherproof and long-lasting material.

Choose wisely

Our solution-died acrylic fabric is machine washable at low temperatures. The white and a colored fabric can both get dirty, but the white one will look dirtier sooner. Do not tumble dry.

# Sundance

Used for Walrus

---

Sundance upholstery is an extremely durable PVC material that does not absorb any water or dirt. This smooth, cleanable material keeps care and maintenance to a minimum.

Choose wisely

---

Tree leaves, dust, CO2 emissions, pollution, bird droppings etc. may leave marks on a spotless white fabric, so keep this in mind when choosing the perfect location for your sofa.

# Batyline

Used for Sol+Luna

---

The Batyline range represents the reference openwork material, which is selected by leading brands in office, hotel, restaurant, spa, yacht and cruise ship markets.

Choose wisely

---

Resistant, durable and aesthetic, Batyline is also a material that is extremely simple and easy to clean by simply washing with water or Extremis Multi Cleaner to restore the fabric's original appearance. Of course, a white fabric will be more delicate than most other colors, e.g. with sun cream.

# High-tech polyester

Used for Manille soft shade

---

This is a high-performance vinyl-coated polyester mesh that blocks up to 88% of solar radiation and 93% of the heat while allowing 28% natural light to pass through. Ideal for outdoor shades, it offers excellent outward visibility while maintaining optimal light and thermal comfort. Its Précontraint® technology ensures the fabric resists stretching and retains its shape even under extreme weather conditions. Additionally, it's mildew- and fire-resistant, making it a durable choice for long-term outdoor use.

Choose wisely

---

Resistant, durable and aesthetic, this is also a material that is extremely simple and easy to clean by simply washing with water or Extremis Multi Cleaner to restore the fabric's original appearance.

# Glamping tent fabric

Used for Manille fixed shade

---

Our Glampint tent fabric is a durable, flame-retardant roof membrane with a textured matte finish, ideal for luxury outdoor applications. With UV-resistant, dirt-repelling, and antibacterial properties, this fabric provides reliable protection while maintaining a sleek aesthetic. Built to withstand extreme temperatures, this perfectly suited for fixed outdoor structures, combining high-performance durability with long-lasting visual appeal.

Choose wisely

---

Resistant, durable and aesthetic, this is also a material that is extremely simple and easy to clean by simply washing with water or Extremis Multi Cleaner to restore the fabric's original appearance.
